PICARDY

THE NEW WONDER GLADIOLUS

I think all Gladiolus lovers, and fans will agree with me when I say that PICARDY is a real Super-Gladiolus. The real super-gladiolus among the many thousand that have been named are not more than ten; and, even some of these might be thrown out without a great injustice.

I have grown many varieties, and have seen many growing that I have not grown nor care to grow. For this reason I am very slow to invest in a new variety unless I am positive of its merit, or it is recommended by someone who I know to be a competent judge of Gladiolus quality.

PICARDY IS THE GLADIOLUS OF THE FUTURE!

If you are an admirer of fine Gladiolus and haven't seen PICARDY you can't imagine its wonderful magnificence and beauty. Undoubtedly it should be high on the list of Super-Gladiolus. In color it is a most pleasing apricot pink. The florets are very large, and placement is nearly perfection. Spikes have from five to eight florets open at once. It is an excellent propagator, and shows signs of proving an ideal forcer. It is sure to become one of the greatest commercials introduced in recent years.

The supply of this variety is limited to a few thousand bulbs and bulblets this season so I don't expect to flood the market. In fact I shouldn't offer any if it were not that like most people I feel the effects of the depression. At the prices quoted below, on the finest bulbs it is possible to produce, every Gladiolus fan and commercial man who can should invest in a base stock of what is destined to become the most satisfactory producer ever released.

	No. 1	No. 2	No. 3	Bulblets.
Per 100	\$100.00	\$85.00	\$70.00	\$8.00

10 bulbs, or 50 bulblets will be supplied at the 100 rate.

OTHER VARIETIES

Limited space here will not permit the listing of the many other varieties produced in my seven acre gardens. I have a complete price list just out however, and a post card will bring your copy if you haven't already received one. The prices and quality of this stock will greatly please you.

SHAW'S

QUALITY FIRST
VALUE - - SERVICE

For the Florist to obtain the best results, quality in his stock is absolutely essential.

This is why our bulbs receive the utmost in care, under personal supervision, from before the stock is planted until they are cured and delivered to you. These bulbs are planted from selected stock and grown in new soil each year, thus assuring you of clean, plump, high-crowned bulbs of excellent quality.

We believe that this high standard of quality of SHAW'S Gladiolus, together with our moderate prices and prompt personal service, form an excellent combination that will help any Florist meet present trade conditions.

Order now, while stocks are complete.
